**Subject:** Fwd: questions about Fig 4-1 in pollinators book

Gentlemen,

I'm working on figures for Wiley and hope you can answer the questions below.

Thanks!

Mimi

Tom,

I'm working to get the tables and figures in shape for Wiley, and am hoping you can help me out with the first box in Figure 4-1. The text does not seem to make sense...something seems to be missing.

**General Protection Goals of a Regulatory Authority**

General Protection goals are overarching  
supported the when specific protection goals are met.

And in the second box of the same figure, is "generic" protection goal the same as "general"? I'd like to keep the terminology consistent.

### **Specific Protection Goals for Risk Assessment**

Specific protection goals are consistent with and support **generic** protection goals; knowledge of whether a specific protection goal is met is based upon whether the assessment endpoints are met.

Sorry to bother you...but there may be more questions. We are expecting a production schedule from the publisher soon, and you'll be the first to know.

Mimi
